Opening Bell & Let's Talk Stocks

Welcome to Virtual BINC 2023. To kick this event off, we have a panel of five experienced stock investors to share a few stock ideas that you might be interested in studying further.

Investment Strategies Before and After Retirement

Should one's investment strategy change when one's retired? This seminar will describe a couple of different investment strategies and answer the question of a member who asked "Should each investment strategy change when one's retired?" We will discuss a strategy for investing for retirement and follow up with a strategy for investing during retirement. We will conclude with a proven retirement model which is practical and easy to implement. It has been used by the author for the past 25 years with virtually no change.

Mastering Judgment When Creating an SSG

The Stock Selection Guide (SSG) is a terrific tool for identifying and evaluating stocks. While the SSG is a simple 5-step process it still poses certain challenges for B members - most often the judgment portions of the SSG. This workshop will focus on how to apply judgment to developing valid studies for our stocks. Topics include what judgments you need to make, sources for supporting information, how to develop and apply your estimates using the information, how to assess different outcomes using different starting points, and how to "pressure test" your studies.
