

Regional Investor Conferences

BetterInvesting understands that institutional investors represent a significant focus for investor relations professionals. However, we also urge you not to forget the power of the individual investor! Individual investors can assist your company in creating a more balanced and diverse shareholder base. Their awareness and support can engender stability, promote liquidity and provoke upside pressure to your company's stock.

You can reach our members/investors by attending one of our special regional events. Conferences for investment education on a local, regional and national scale bring individual investors together for public company investor presentations, investment education, knowledge sharing and networking. This is a great opportunity to meet our attendees and deliver your corporate message to a large group of educated, long-term investors.

2019 BetterInvesting Regional Investor Conference Schedule:
