Are you interested in growing your club? Or looking to grow as an individual investor? Here are some things that could help.

### [What's New in Online Tools](#)

Consider devoting one club meeting to online tools. It can be fun and effective to learn together. This fast-paced class provides an overview of the most recent changes to BetterInvesting's CoreSSG and SSGPlus stock selection tools, as well as the Stock Comparison Guide. New features include the ability to share a complete Stock Comparison Guide (SCG), add Cash to a portfolio, expansion of the notes feature to allow notes to be shared with the community, addition of Staff Notes to all users, addition of a new Ratios tab that includes three valuation ratios (SSGPlus only) and more. In the latter half of the webinar, questions from the audience, covering a wide range of online tools topics, are answered.

### [Club Visits](#)

Maybe you'd like to take advantage of some in-person training for your club. Golden West chapter directors are available to visit your club. Whether you have a specific topic you want covered, or leave it up to them, they will share their investing expertise to help you as a club become more knowledgeable and effective investors. We urge you to take advantage of this personalized resource.

If you would like a club visit, please email [contact@goldenwest.betterinvesting.net](mailto:contact@goldenwest.betterinvesting.net).

### [Visit a Club Program](#)

Is your investment club willing to allow guests to attend your meetings? This is an opportunity to share the educational benefits of being in an investment club with others, as well as attract new members. As an individual investor, maybe you are interested in visiting an active investment club that invests according to BetterInvesting principles. If this describes you, check out the Visit a Club program on our Chapter website for a list of clubs to visit or information on how you can open your club to others.
