Presented Monday, October 26th

We invest in companies because they seem to be on track to meet our investment goals. Sometimes we get blindsided when things change. We can avoid surprises if we turn and face the strange. This session will look at how we can improve our chances of spotting a changing company.

COMING SOON

“THE YEARS KEEP ROLLING BY”
MONDAY, NOVEMBER 30TH ~ 5:30 PM PST

At BETTERINVESTING we invest for the long-term. We project the future over the next five years, but the seasons spinning round again, the years keep rolling by, and we may not look closely at our company. Often, we are lulled by our initial judgment and do not adjust our expectations as things change.
